

# THE NEXT REVOLUTION IN OUTDOOR COOKING INNOVATION. DURABILITY. VERSATILITY.

**Precision Control:**

The new air cap design with a silicone handle offers precise temperature control. An improved seal guarantees reliable performance, while the redesigned thermometer, with a flatter face and reduced condensation, ensures accurate readings.

**Built to Last:**

A new handle, crafted from 30% glass fiber-reinforced nylon, offers exceptional durability and a comfortable grip in any weather. The upgraded damper, in a sleek black finish, enhances both performance and style.

**Enhanced Workspace:**

The Modular Side Table, with magnetic HPL inserts, provides a durable, weather-resistant surface for slicing, seasoning, and plating.

**Ready to Roll:**

The pre-assembled stand features improved wheels for effortless mobility, whether you're at an event or setting up for a backyard cookout.

**Designed for Excellence:**

The BSTRD. series blends functionality with bold, modern design—outdoor cooking, redefined.

# BSTRD. HIGHLIGHTS

**Precision Air Cap:** Redesigned with a silicone handle for easy, accurate temperature control and a tighter, more reliable seal.

**Upgraded Thermometer:** Flatter profile for clearer readings and reduced condensation, ensuring accurate temperature monitoring.

**Reinforced Handle:** Built from 30% glass fiber-reinforced nylon for exceptional durability and an ergonomic, all-weather grip.

**Modular Side Table:** Versatile workspace with interchangeable magnetic HPL inserts, offering superior durability and weather resistance.

**Enhanced Damper:** Sleek black design with an improved seal for better heat and smoke management.

**Improved Stand:** Pre-assembled for quick setup and upgraded with premium wheels for effortless mobility.

# BSTRD.PRO HIGHLIGHTS

**Precision Air Cap Pro:**

Redesigned with a silicone handle for precise temperature control and additional flipping mechanism for an instant temperature boost.

**Upgraded Thermometer:** Flatter profile minimizes condensation and ensures clear, accurate readings.

**Reinforced Handle:** Made from 30% glass fiber-reinforced nylon for superior durability and a comfortable, all-weather grip.

**Modular Side Table:** Equipped with magnetic HPL inserts, providing a durable, weather-resistant, and versatile workspace.

**Enhanced Damper:** Delivers improved sealing for optimal heat and smoke management.

**Optimized Stand:** Pre-assembled for easy setup and fitted with upgraded wheels for smooth mobility.

**Split Firebox:** Boosts heat retention and minimizes ceramic damage.

**Grip 'n Go Accessory:** Designed for easy and safe kamado handling.

**Dynamic Twist Deflector:** Offers consistent temperature control and easy transitions between direct and indirect heat zones.
